

Making a Memory Candle Jar

- Take one clean, clear jam jar
- Use stickers or cut out letters, images, jewels, hearts, glitter, glass paints and whatever else you fancy to decorate your jar in memory of your child, sibling or grandchild. We have included some pictures on this sheet to inspire you.
- If you want to you can use covered wire or string to twist together to make a handle for your candle jar.

Then just add a tea-light and we will light them together during the candle lighting event online on the evening of Sunday 13th December.
